

Synonymous Word Double Replacement

About These Problems

To answer these questions you must find the set of synonyms in the multiple choices that match the meaning in the sentence. If the context requires two words that mean the same thing, sometimes just finding the words that mean the same thing regardless of exact definition can help. In this scenario, look at the relation of the words more than the context of the sentence.

Question. The decision between the two friends was unanimous. Judy was _____ about the outcome, and Samantha was _____ as well.

- A. enthusiastic, positive
- B. apathetic, excited
- C. surprised, acrimonious
- D. decomposed, reliant
- E. ecstatic, betrayed

Answer. A: The word "unanimous" implies that they both agreed about their emotions about the decision. The "as well" at the end also implies that the two words will be synonyms. The only synonyms in the options are enthusiastic and positive which leaves us option A.
