

## Comparison

### About These Problems

In critical reading sections you will be given a long passage and will be asked questions about the purpose and tone etc. Comparison involves making a comparison between two authors and passages. Usually the answers will be either the authors agree or they disagree. Watch the tone in each passage.

**Question.** How would the author of the first sentence talk to the author of the second?

*Sentence One: Global Warming is a real threat to planet Earth's stability to serve as a home to our ecosystems.*

*Sentence Two: Global Warming is a just a farce created by scientists to allocate more funding to NASA and other science programs.*

- A. Admonishment
- B. Support
- C. Nonchalance
- D. Happiness
- E. Guilt

**Answer. A:** The author of the first strongly disagrees with the sentiment that global warming is a hoax. He/she would be very angry. Therefore option A is the best answer.
